The purposes of the Bendigo Car Club are to provide competitive motor sport and social motoring options to individuals and families from Bendigo and surrounds in a safe, helpful and friendly environment

Presidents Report

February saw us back at Bagshot for our test and tune day to kick off the year, March will see the first competitive event for the year, which will be round 4 of the 2021/22 club championship. This will be a Khanacross Motorkhana on the 6th March, speaking to Jim, the track is in good condition after the test and tune day and a bit of rain on it last week.

This is the start of a busy 2 months, as well as the Khanacross on the 6th March, we have the Eddington on the 26th March, our VCAS round on the 3rd April and the Easter Dash on the 16th April. I know I can sound like a broken record at times about this but the club will need your help for each of these events to make them successful and to make the load easier on all the key officials, if you can help with any of them, please let me know so I can pass it on to the relevant people.

As you all are aware COVID restrictions are all ways changing and the latest round of easing haven't changed a lot for what we have been doing except there is no need for a QR check in, but we still have to be vigilant with our social distancing etc.

So, all in all we are looking at the possibility of a great year ahead, with that, I have attached a couple of multi-club and state series calendars for our members to plan their seasons.

Yours in Motorsport
Craig Button.

In the News: -

The FIA has released a recent safety bulletin, emphasising the importance of safety harnesses when competing.

The bulletin focuses on a number of steps competitors should take in order to equip their harness correctly so that it provides optimal protection in the event of an accident.

Whilst the release is focused on International competition, competitors must note that the information is relevant to all levels of competition under Motorsport Australia, from grassroots all the way to national competition.

With officials able to deny participation if the harnesses are not installed correctly, the steps provided are the easiest way to avoid issue before competing.
